### ABSTRACT

Women perform an important role in building the real backbone of a nation's economy. There is considerable entrepreneurial talent among women. Many women's domestic skills such as people and time management and household budgeting are directly transferable in the business context. Women have the ability to balance different tasks and priorities and tend to find satisfaction and success in and from building relationships with customers and employees.

### Introduction

Entrepreneurship plays an imperative role in the growth of any society. Development of entrepreneurship culture and qualitative business development services are the major requirements for industrial growth. Entrepreneurship emerges from an individual's creative spirit into long-term business ownership, employment creation, capital formation and economic security.

#### A Good Introduction :-

*Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.*

### Materials

Must add methods and materials in your article.

#### A Good Materials :-

*Methods & Materials used to per research topic.*

### Result

Must add result in your article.

#### A Good Result :-

*Results are as per aims and objective and useful to further research .*

### Conclusion

Women entrepreneurship has gained momentum in the last three decades with the increase in the number of women enterprises and their substantive contribution to economic growth. In the dynamic world, women entrepreneurs are likely to become an important part of the global quest for sustained economic development and social progress.

#### A Good Conclusion :-

*The research have wider scope for new academician and research scholars.*

### REVIEWER COMMENTS

- This was a superb give an account of extremely intensive examination.
- The writing audit was careful, the approach was carefully exhaustive and fused the utilization of sufficient quantities of tests in dust size examination and blast tests.
